

Center for Computational
and Applied Mathematics

Big Data Discovery & Diversity
THROUGH RESEARCH EDUCATION ADVANCEMENT AND PARTNERSHIP

Jaymie Shanahan obtained her Master of Science degree in Biostatistics, from the University of South Carolina. She earned her BA in Mathematics (Statistics Minor) from Elon University. She moved to an Analytical Consulting role where she was responsible for delivering solutions for various SAS customers interested in forecasting and optimizing revenue management. Now, as part of the Global Academic Program at SAS, Shanahan provides consulting around the country to universities, community colleges, and high schools by teaching faculty and students how to use SAS Software.

SAS Programming Workshop

George Habek: Sr. Analytical Training Consultant – Education Practice – Global Academic Program. George has been using SAS for over twenty years, beginning with data processing and statistical analysis in an academic setting, then onto consulting and corporate work with the latest SAS products. George holds a B. S. in Mathematics/Statistics from Loyola University Chicago and a M.S. (with distinction) in Applied Statistics from DePaul University Chicago.
